FRANK M'DOUGAL BACK FROM ARMY

MARYVILLE BOY WAS PRISONER MORE THAN A YEAR

AND HE WILL NOT TALK

Husky and Healthy, Seems Unaffected by Experience; Admits It Wasn't So Bad As Some Thought

It's no use; you can't get them to talk.

Friends and relatives of returned soldiers have found, as a rule, that the more the soldier has seen, the less he can be got to talk about it. This rule holds true for Frank McDougal, son of Mr. and Mrs. R. L. McDougal of Maryville, who returned to Maryville last night after nearly two years and a half in the army, considerably more than two years overseas, including thirteen months spent as a prisoner of the Germans. Frank was taken prisoner in the first raid of the Germans against the American trenches November 4, 1917, and did not return to his command until a month after the signing of the armistice in 1918.

There's no use asking him about it, though. He will admit that being a prisoner was unpleasant, as everybody knows, but he says that it was not so bad as many of the home folks thought. Also, he is not going to reenlist in the army.

Frank, who is 21 years old (his father had to give his consent when he enlisted), is brown and husky. If the imprisonment affected his health, no trace of the effects remains after his sojourn with the American army of occupation in Germany. He looks as if he could handle his weight in wildcats.

After enlisting in the army on May 17, 1917, he was assigned to Company F, Sixteenth Infantry, First Division, with which he went overseas in June, 1917. The Sixteenth landed at St. Nazaire, France, on June 26. After a period of training in France, the division took over a part of the trenches north of Toul the last week in October, 1917. They were the first American soldiers to hold a front line trench.

November 4 was the date of the first disastrous German raid. Frank, with eleven other men of his company, was made prisoner. The German communique of the following day spoke of a successful raid which brought back "North American" prisoners.

Information on Frank's stay in German hands is incomplete. He admits being stationed for a while at Charleville, which was German general headquarters; he says he didn't get sent out on a farm to work ,as many prisoners did—and that is all there is to it. The food situation was bearable when the Red Cross packages came through.

About a month after the signing of the armis[illegible] rejoined his company and s[illegible]t, a quiet winter in Germa[illegible]e home with his company a[illegible]me General Pershing did, an[illegible]d in New York and Washin[illegible]e latter place meeting his br[illegible]hn, who is employed there.

The First Division is stationed at Camp Taylor, Louisville, Ky., and most of the men are being discharged and replaced by newly enlisted recruits. In the course of the war the First Division was almost completely filled by replacements, as a result of casualties on the field and disease. When Frank rejoined his company only about fifteen or sixteen of the old gang were left.

YOU HAVE TO MAKE A DATE TO SEE SHOE SALESMEN NOW

Scarcity Keeps Them From Visiting Smaller Cities, Says W. A. Miller, Who Goes On a Buying Trip

Shoe salesmen are getting pretty haughty these days, according to W. A. Miller of the Bee Hive Shoe company, who will leave tomorrow on a buying trip to St. Joseph, Kansas City and St. Louis. He will return to Maryville Tuesday.

In the old days before the scarcity of labor reduced the output of shoes, Mr. Miller says, the salesmen were glad to visit all the stores and take whatever orders they could get. Nowadays they send out notices to the dealers in the smaller cities to meet them in the larger cities and bid on what the dealers in the larger cities have left for them to sell.

One of the salesmen Mr. Miller is to see in St. Louis is not expected to go any farther west than St. Louis this season; he doesn't have to, and besides he has not so many shoes to sell.

REVIVAL AT BAPTIST CHURCH WILL START OUT TOMORROW

Evangelist Kennedy to Arrive Tonight; Formerly Pastor In Kansas City; New Song Books Are Ready

Evangelist G. E. Kennedy will arrive tonight to begin special revival services at the Baptist church tomorrow morning. New song books have been secured, and special preparations have been made for rousing congregational singing.

Rev. Mr. Kennedy was for years pastor in Kansas City and built up a strong church. It is said of him that he is a man of pleasing personality and of strong convictions, who does not fail to magnify the church but is always more eager to introduce men to Jesus Christ. Everywhere he has gone churches testify to the quickening of religious life and of work that does not need to be done over again. "Not only does the church in which he preaches feel the inspiration, but all the churches of the community and their pastors find their work easier afterwards because of the deep religious atmosphere created," says Rev. W. C. Ferguson, pastor of the Maryville church.

Cottage prayer meetings have been carried on throughout the town this week and will be conducted next week as usual. The places where they will be held during the following week will be announced from night to night at the meetings at the church.

HOMECOMING DAYS BEING CELEBRATED

QUITMAN SESSION ENDS; AND NOW COMES HOPKINS

BARBECUES ARE POPULAR

No Party Complete Without One; Two Airplanes, Speakers and Free Attractions Are Promised

The fall season of homecoming celebrations is just getting in full swing in Nodaway county, it seems. Yesterday Quitman finished three days of celebration with a big barbecue, and now the bills are being distributed for the celebration at Hopkins October 3 and 4. Its name ,that of a Victory barbecue, gives it away at once; no gathering is complete without an offering of beef. And after Hopkins gets through, it is expected that other Nodaway county towns may announce homecomings. The weather is so cool now that the returned soldiers can wear their woolen uniforms with comfort.

The Hopkins committee announces "Two days in honor of the returned soldiers," and those who know the hospitality of the north Nodaway metropolis feel sure that attending will be worth while.

Next Friday will be barbecue day at Hopkins. Saturday will be homecoming day. Good speaking and lots of music are promised for both days. The Friday speaker will be L. C. Gabbert of St. Joseph. W. A. Blagg of Maryville has been invited to speak the second day.

Two airplanes—count 'em, two—will be at Hopkins both days. They will give two exhibition stunts each day and will carry passengers. The aviators will be Donaldson brothers, who flew so successfully at the recent St. Joseph fall festival.

Other free attractions are to be offered, including the Reuben Wray company in five acts, who will perform as wire walkers, jugglers and acrobats, besides working on the revolving ladder and the rolling globe.

Music will be given by the Hopkins concert band. The free dinner on Friday is expected to prove one of the greatest attractions.

Good weather attended all the affairs at the three-day celebration which closed at Quitman yesterday. Yesterday was barbecue day, and the largest crowd of the whole celebration was present. Thousands of pounds of beef were served. Thursday was homecoming day, when the old settlers gathered for reunions. Wednesday was the day dedicated to the soldiers. The following registered that day:

Oliver Vert, Camp Custer, Battle Creek, Mich. Bryle band; Doc Hankins, 351st Inf., 8th Div.; Homer Aldridge, Co. 9, Btn. 15; Maurice Thompson, Co. B, 138th Inf.; Harry Worl, Co. WORK HERE KNOWN ALL OVER THE U. S.

INQUIRIES COME DAILY ABOUT VITALIZED AGRICULTURE

MISSIONARIES SENT OUT

Teachers to Go to Other Counties of State to Spread Gospel; A. E. Winship's Article Helps

Nodaway county is becoming known as the headquarters for vitalized agriculture work, according to Bert Cooper, county superintendent of schools, who receives the requests for information and sends out the letters and the lecturers. Mr. Cooper has established an informal lecture bureau, which carries the gospel of vitalized agriculture to the other interested counties of the state.

Prof. W. A. Power, superintendent of the Harmony schools, has just returned from Grundy county, where he was sent by Mr. Cooper to assist the teachers in starting the work. At Dunlap he addressed the teachers, while at Hickory he addressed both the teachers and the patrons. Considerable interest was shown.

Superintendent Cooper himself preached the message of vitalized agriculture in Grundy and Livingston counties a few weeks ago.

Next Friday and Saturday Prof. W. J. Lewis, superintendent of schools at Parnell, will go to Mercer county to assist the teachers there in the same sort of work. He will give an address Friday night, another Saturday afternoon and another Saturday night.

Both Professor Power and Professor Lewis are leaders of the conferences that are held in their districts every two weeks by teachers of vitalized agriculture. Other conferences are held in Maryville, at Pickering and at Gaynor. The Maryville conference is meeting today.

Next Saturday, October 4, Mrs. W. O. Griffey, assistant supervisor of the work in this county, will go to Atchison county to give instruction in the work there.

Dr. A. E. Winship's recent article on the Nodaway county work, which appeared in the Journal of Education and which was reprinted in both of the Maryville dailies, has attracted attention all over the country, according to the inquiries for further information that are coming in to Mr. Cooper every day. This morning he received letters on the subject from the extension division of the University of North Dakota at University, N. D., and from the superintendent of schools at Portland, Oregon.

No bulletins have yet been printed on the work, and Mr. Cooper replies by asking the inquirers to come here and watch it work.

Vitalized agriculture work is to be featured in the pageant which will be presented by the students of the four schools at Harmony as a part of the closing program of the Harmony farm chautauqua next Saturday night.

Reports Reach Labor Circles; Strikers and Police Clash in South Chicago, Injuring Negro

Pittsburgh, Sept. 27.—The first week of the steel strike drew to a close today with the situation virtually unchanged, except for claims of the operators that more and more men are returning to the mills and resumption of normal wor kin many plants can be expected, starting next week. At strike headquarters it was asserted that a complete survey of the situation discloses the fact that more than 75 per cent of the total industries have been forced to suspend on account of the strike. The situation here today rested with rival claims irreconcilable.

Full page advertisements appeared in the newspapers today, printed in English, Polish, Slovak, Italian and Magyar, advising the men to "Go back to work Sunday."

Chicago, Sept. 27. — Steel strikers and police clashed in South Chicago today when a crowd of alleged strikers attacked a negro employe of the Illinois Steel Company, beating him severely before he was rescued.

Pittsburgh, Sept. 27.—The leaders of the striking steel workers opened up the war on the Newark front today when the national committee voted unanimously in favor of calling out the employes of the Bethlehem Steel Company, whose plants thus far have worked unmolested by the strike. More than 40,000 men will be affected, according to William Foster, strike director. The walkout is set for Monday morning at 6 o'clock.

Dock Men at Cardiff Also Quit; Lloyd George Calls the Affair a Conspiracy

London, Sept. 27.—The railway strike which went into effect at midnight, involving more than 600,000 workers may spread to the coal mines and transport workers, absolutely paralyzing industry as well as traffic throughout the kingdom. Bob Williams, an official of the transport workers union, declared today that "trial alliance" miners, transport workers and laymen's unions "may be automatically involved." The declaration came with the stunning force of a bomb shell in England.

His many friends while regretting that he is to leave, wish him well in his new location.

Fine Apples; Whose Are They?

Somebody with apples to be proud of left a good-sized box of them in the Maryville Commercial Club's office the other day while the office force was absent. It is presumed that they are for the club's exhibit of Nodaway county products, but so far no owner has appeared to attach his name to them. The largest, a red cap, is thirteen inches in circumference, and the others are large and luscious looking. The office force is heroically fighting off temptation.

The Buick Built Transmission

The sliding gear type of transmission is used on Buick cars because of its strength, convenience and quietness of operation.

Three forward speeds are provided, so that the motor speed with relation to the speed of the rear wheels may be instantly adjusted to meet any conditions that may be encountered, such as putting the car in motion, driving in deep sand, heavy mud, on steep grades or ordinary roads. It requires only a slight movement of the lever to shift the gears.

The speedometer drive is enclosed in the transmission, thus eliminating all toggle joints and gears from the front axle.

All gears run in a bath of oil, the universal joint at the rear of the case being automatically lubricated from the same source, the oil from the transmission case entering the universal joint through the rear bearing.

AFRAID TO DRIVE TEAM TO TOWN

Farmers' Nerves Were Shattered—Had Lost Forty Pounds—Tanlac Resores Health

Tanlac

"I never expected to be the strong, well man I am today and my neighbors think my recovery is the most astonishing thing that has ever happened in this part of the country," said Hiram Robinson, a well known farmer, R. F. D. 3, Randolph, Illinois, in relating his remarkable experience while in Shorthouse drug store at Bloomington, recently.

"I used to think no medicine could help me," he continued, "But I've got to hand it to Tanlac, as it has not only relieved me entirely of all my suffering, but has added nearly forty pounds to my weight besides. For eleven years I was hardly able to be up, much less work, and when I ventured to eat any thing except broth and the very lightest of food I would put in a day of the worst misery imaginable. If I ate a piece of pie or cake or a little fruit gas would form on my stomach and bring on such awful cramping pains that I could hardly stand it. This gas would press on my heart, nearly cutting off my breath, and cause such a dizzy, whirling sensation in my head that I thought I would go distracted. I dropped down all of forty pounds in weight and got so weak that I could hardly walk. At the time I got Tanlac I had not been able to do my work for a year. I was not only an absolute wreck physically, but my nerves were in such a shape that I couldn't lie still at night and during the day I was just like a fish out of water. I was habitually constipated and had such a hurting in my head just back of my eyes that I couldn't read at all. I was so nervous, weak and dizzy that I was actually afraid to drive a team to town and had taken so many different medicines without getting any better that I had given up in utter despair.

"But, one day I was persuaded by my wife to get a bottle of Tanlac and right there is where my recovery started. If I should sit down here and talk or write for a solid week I could not tell how thankful I am for getting out of my misery to where I can enjoy living again. I now eat all kinds of meats, vegetables, pies, and cake. In fact I eat like a wolf and enjoy every mouthful and never have the least trouble with my stomach. I sleep as good as did when a boy and can do as much work as I ever could in my life, when I was able to work at all, but now they have to step some to keep up with me. I am not one bit constipated and haven't had one cramp in my stomach since Tanlac commenced to bring me out of the kinks. What I say is more than verified by my looks, but my neighbors will tell you the same thing. I will never get through praising Tanlac."

"Tanlac is sold in Maryville by Koch Pharmacy, in Conception Junction by A. M. Colly, in Pickering by H. M. Lincoln, in Burlington Junction by Coster Pharmacy, in Barnard by Bear Drug Co., in Elmo by King Drug Co., in Clearmont by Dr. W. H. Wiley, in Ravenwood by C. A. Shunk, in Arkoe by Rufus R. Smith, in Hopkins by Hopkins Drugs Co., and in Parnell by F. L. Hart." ADV.

AGRICULTURAL SHORT COURSE AT M. U. WILL START OCT. 27

Graduates of This Work Show Results of Increased Yields; Two Terms, Last Ending February 27

Columbia, Mo., Sept. 26.—Inquiries are coming from all over the United States for information in regard to the short course in the College of Agriculture of the University of Missouri which begins October 27. This intensive course in agriculture for busy farmers is known throughout the United States as one of the best, and each year students come from the north, east, south and west to receive instruction.

Statistics on short course students which have been kept by the college of agriculture show that the graduates have increased the yield per acre of their crops and have raised prize cattle and hogs after applying the knowledge gained in the short course.

Investigations a few years ago showed that in a certain section of the state where the average yield of corn per acre was twenty-eight bushels, three or four short course graduates in the same section were getting forty bushels per acre through scientific methods of farming which they learned during their comparatively few months of study in the short course.

Several short course graduates also took prizes at the state fair this year for their cattle and hogs.

The first term begins October 27 and lasts until December 20. The second term opens December 31 and closes February 27. It is an intensive course in farming that adds materially to the efficiency and success of those who attend the course, statistics show.

MOST U. S. SOLDIERS TURN DOWN CHANCE IN LITHUANIA

Attempt to Recruit American Brigade to Fight Bolsheviki Proves Rather Unsuccessful

St. Louis, Sept. 26. — The job of fighting Bolsheviki under the flag of Lithuania does not appeal to the American soldiers who have been given the opportunity through the Lithuanian mission in Paris. This information is given in a letter from Kendall K. Kay, a former member of the Stars and Stripes staff, now employed by the American Red Cross in Paris.

"There has been a want ad in one of the local papers for several days calling for discharged Americans to apply at the Lithuanian military mission for service in Europe, with a promise of good pay," Kay writes. "I dropped in on the Lithuanians and found they planned an American brigade of 6,000 men to fight the Bolshevists. The pay, they said, would be about the same as that paid by the United States army. They claim they have signed up sixty—principally colonels, majors and other officers."

Kay says several men who have been discharged in France have been making themselves rich through sales of souvenirs.

FALLS CAUSE MOST DEATHS BY ACCIDENT IN ST. LOUIS

Considerable Reduction in Total Expected This Year; Automobiles Make Much Trouble

St. Louis, Mo.—The greatest number of accidental deaths in this city during 1918 and this year to September, were caused by falls

The deaths from falls in 1918 totaled 129 and for the first eight months of 1919, seventy-seven. These records were obtained from Coroner Vitt.

These were 525 accidental deaths of all kinds during 1916, 510 in 1917, 520 in 1918, and there have been 250 up to September 1, this year. The coroner pointed out that if this ratio is maintained there will be less than 400 accidental deaths during this year.

Automobile deaths come second in toll taken. There were 100 such fatalities in 1918 and 51 for the first two-thirds of this year.

The coroner pointed out that while there had been a natural growth in population and the hazards of life had been increased by the rapid multiplication of automobiles, "persistent education" of the public in safety methods had increased the number of fatal accidents.

"There has been a gradual decrease in the number of coroner's inquests from all causes," Vitt says. "For the first eight months of 1917 there were 1,350 requests, the equivalent period in 1918, 1,140, and this year to September 1,101."

OUR OPPORTUNITY

to do a great good

not only for others but for ourselves—lies in the help we can give toward the building of the much-needed addition to

St. Francis Hospital

St. Francis is Nodaway's Hospital—the only institution of the kind in the county and the most important hospital in the northwest corner of the state. It is an institution that every citizen of the county is justly proud of. One that every citizen wants to see grow, and no doubt every one of us in sympathy with this new addition which will double the capacity of the hospital and make it of more usefulness to the community.

We also appreciate the great work of the Sisters who maintain this institution untiringly, without thought of pay, and the beautiful expression of charity shown by the treatment and loving care given to patients who are unable to pay anything for it.

All of this appreciation we can express in our donation to the fund for the erection of this addition. It is an opportunity for an investment in something tangible—something real and something that is OURS.

Let us see this clearly in the light of an OPPORTUNITY instead of simply a duty, and make our investment accordingly, going "over the top" in this case as we have always done in the support of every good cause.

Smallest Township in the County First to Have Soldier Memorial

In years to come when the great European war shall have become but a memory and those who are but children now shall have reached the age of matured manhood and womanhood, the part played by the boys of Jefferson township in that great struggle will be pointed to with pride and it will be said that although the township was the smallest in Nodaway county more of her sons made the supreme sacrifice than any other township in the county.

To honor the memories of those boys a monument is being prepared which will be placed in St. Columbia cemetery at Conception, and about this monument will be seven mounds, each properly marked to designate the boys whoses memories we delight to honor, and although some of these mounds will not cover the remains of the ones who died in sunny France, a feeling will steal over those who may visit that hallowed spot that they are looking upon the last resting place of Jefferson township' heroes.

Upon the monument will be carved the pictures of the boys, together with their names, the units to which they were attached and the place and date of death.

The cost of the monument will be about $1,500, and word has been received by the committee that it will be completed and ready for shipment in a few days. There are a number who have not been solicited to subscribe to the fund that is being raised to pay for the monument and other incidental expenses, and we believe there is not a resident in the township who does not want to have a part in this great memorial work.

The committees from the different parts of the township are as follows: Northeast—C. F. Farnan, B. Eickholt. Southeast — Leo King, Eli Schieber. Southwest—Ed Archer. Northwest—P. R. Growney, P. S. Brady.

If for any reason you should not be called upon, make it your business to hunt up the committee from your section and do your bit.

Below is a list of those who have already contributed to this fund: John Allen and son, $25; Tom E. Archer, $25; P. R. Growney, $20; Barney Eickholt, $15; P. L. Shea, $15; Gaa Bros., $15; Roy Fitzsimmons, $10; Rev. Fr Joachim, $10; Rev. Fr. Frowin, $10; Henry McCann, $10; V. C. Protzman, $10; R. W. Graham, $10; John W. Woods, $10; A. G. Schelber, $10; J. D. Growney, $10; J. T. McCann, $10; Jos. Lager, Jr., $10; O. R. Proctor, $10; C. F. Farnan, $10; Ketterer Bros., $10; Frank Baber, $10; C. C. Farnan, $10; Leo Scheiber, $10; Oscar Klaas, $10; Frank Luke, $10; J. C. Lynch, $10; C. Eickholt, $10; John Keefe, $10; F. J. Lager, $10; Ed Archer, $10; Leo King, $10; Philip Growney, Jr., $5; F. Weiderholt, Sr., $5; Eugene McCann, $5; Julius Ellerman, $5; John Sturm, Sr., $5; Robert Moffatt, $5; J. E. Merrigan, $5; Roy Merrigan, $5; Barney Brady, $5; C. J. Mossey, $5; Albert Felix, $5; John Lynch, $5; Lewis King, $5; M. Zirfas, $5; F. Guenther, $3; Jos. Stuckle, $1; Tom Fagon, $1; M. Emgee, $1.—Conception Courier.

Will Celebrate Columbus Day.

The 12th of October, Columbus day, will be celebrated under the auspices of the Knights of Columbus at Conception Junction. Features will be a basket dinner and a good entertainment will be offered in the line of music, speaking, etc. Everybody is cordially invited, but do not forget to bring a well filled basket. All will congregate at 1 o'clock (new time) at the hall and K. of C. club room, and if the weather permits will proceed to a grove selected. If weather is not favorable, dinner and the program will be held in the Costello hall. —Conception Courier.

Hurt Twice in Same Manner.

Word has just been received in the 13-year-old son of Mr. and Mrs. C. Ed Sturm, formerly of Maryville, is recovering from an accident at the home of his parents in Oklahoma City, Okla. About a week ago a truck ran over both his feet, severely bruising them but breaking no bones. He was riding a bicycle when the accident occurred. The same sort of thing happened to him a year ago when he was thrown under the feet of a team of horses. He was riding a bicycle at that time, too.

Mr. and Mrs. Maurice Stokes and daughter, Rowena, of Craig, Mo., are visiting Mrs. Stokes' mother, Mrs. Sarah Willard, and sister, Miss Leona Willard.

Will Receive Irish President.

T. A. Cummins of Maryville and Robert Graham of Clyde have been named as Nodaway county members of a committee on arrangements that will plan for a reception when Eamon de Valera, president of the Irish republic, visits St. Joseph late in October. The probable dates will be October 25, 26 or 27. T. J. Lysaght of St. Joseph is chairman of the committee. It is expected that the committee will engage the auditorium, where a public mass meeting will be held. "This will not be a political affair," says John J. Downey, president of the St. Joseph branch of Irish Freedom. "Neither the policies of our government, the league of nations nor any political or religious question will enter into the reception to Valera. We merely want to do homage to a distinguished visitor."

Former Resident Hurt in Iowa.

Daniel McKay, a well known farmer and Civil War veteran, a former resident of Parnell, suffered a broken arm and shoulder at Muscatine, Ia., Wednesday, according to word received in Maryville today. Mr. McKay, who is an uncle of Mrs. George Felton of Parnell, now lives at Wapello, Ia. He was visiting a building in Muscatine. When told to go to a certain room, he opened a door and stepped into an elevator shaft. He fell ten feet. The bones were set at a hospital in Muscatine. Mr. McKay has often revisited Nodaway county.

A. J. McKillip Sells His Farm.

Andrew J. McKillip yesterday sold his 100-acre farm four miles southeast of Maryville to John P. Erickson of Bolckow, formerly of Bedison. The consideration was $17,500, a price of $175 an acre. Possession will be given March 1. Mr. McKillip probably will move to Wyoming. The deal was made through the agency of C. D. McKibban of near Maryville. Incidentally, Mr. McKibban hopes that the announcement of the sale will save him from being bothered any more by responses to the want ads he inserted in the Maryville papers. It got so that he couldn't go out in the field to work without being called back to talk business.

$202 An Acre at Sheriff's Sale.

Two hundred and two dollars an acre was paid this afternoon at the sheriff's sale at the court house for the Workman eighty, six miles north and a mile west of Maryville. L. M. Gray, who lives two miles from the farm, was the successful bidder. The bidding started at $125 and went up rapidly. The total is $16,160. A life estate in twenty acres of the James R. Pope farm, six miles southeast of Skidmore, sold to an unnamed bidder for $244.86.

One Candidate for Graham P. O.

Miss Grace Hayzlit of Graham was in Maryville today taking the civil service examination for postmistress at Graham. She is the only candidate for the position.

Mrs. L. S. Hamilton went to Bedford Ia., last night to spend the week end with relatives. She will be joined tonight by Mr. Hamilton.

Mrs. Eph Tilton left this morning for Argentine, Kan., where she was called by the death of a granddaughter.

EXPORT OF SUGAR FROM U. S. WAS ARRANGED FOR LONG AGO

Trade Paper Explains That Cause of Present Shortage is Not to be Laid On British Purchases

The suggestion has been made that if it were not for exports of sugar from the United States there would be no unfilled domestic demand.

At the time the entire 1918-1919 Cuban crop was purchased by the United States sugar equalization board last fall the British royal commission on sugar supply arranged that it should secure, and in fact it did purchase from the equalization board, one-third of the Cuban crop of raw sugar. Later it was arranged through the United States equalization board that 535,000 tons of this should be refined in the United States as an accommodation to the allies. Accordingly, it is this sugar, originally purchased by the British royal commission, which is being refined in the United States, and in sending this sugar to England, France and Italy we are not in the real sense of the word exporting sugar, but are simply passing on to these countries their own property and not selling sugar for export. This sugar is being refined on toll by the American refiners at the margin agreed upon for domestic purposes.

The sugar industry of the United States since the creation of the food administration has been under the control of the United States government and will continue to be during the life of the agreement between the sugar equalization board and Herbert Hoover, the agreement expiring on December 31, 1919.

Reports of the statistical department of the equalization board indicate that up to September 1 there have been exported this year, aside from shipments to the royal commission, slightly more than 100,000 tons of refined sugar or the equivalent of ten days' supply for the United States.—American Sugar Bulletin.
